

Employee order processing (gn) at the Irschenberg site

Would you like to play in the Champions League of IT and network technology? - We are your player!

Market growth

Increasing requirements (Power over Ethernet, WIFI, technical infrastructure)

Industry attractiveness

Network construction & system solutions in the field of communication systems

Stability

Medium-sized company

Headquarters: Irschenberg/Upper Bavaria

Our recipe for success:

- maximum availability at the customer
- maximum individuality

Ensuring availability - Your tasks

- You will independently process orders and projects for the sale of customized and high-quality systems and overall solutions for communications cabling and the security infrastructure of data centers and IT operating rooms
- You process the orders holistically from the customer order to the invoicing to the customer
- You have direct contact with our industrial end customers and planning offices throughout southern Germany and your goal is the customer-optimized processing of orders
- You maintain and take care of the master and CRM data in our ERP system on your own responsibility.

Motivated and open for new things - You fit to us

- Completed commercial training
- Experience in using an ERP system (ideally Oxaion)
- First ERP admin experience desirable
- First experience in order and project processing desirable
- Export experience desirable
- Technical understanding
- Communication skills and authentic appearance
- Service and customer orientation
- Reliability and independent working style
- German and English language skills, both written and spoken

Innovative and future-oriented - We offer

Innovation, individuality and growth are the pillars of our corporate culture and require a framework that is as innovative as it is individual.

We offer - you profit!

- Young dynamic team
- Permanent and secure job
- Flat hierarchies
- Personal development opportunities
- Attractive general conditions (13 monthly salaries, 30 days vacation)
